

POSTOPERATIVE INSTRUCTIONS

Laser Surgery

1. You may notice a temporary alteration in your vision after this procedure.
2. Your symptoms should resolve within 8-12 hours.
3. Resume all your normal activities and medications.
4. Your eyes may feel dry or irritated after this procedure. You may use Artificial Tears to treat mild irritation after this procedure.
5. Continue using any previously prescribed eye drops in addition to new medications listed here:
6. Please wear sunglasses outside until pupils return to normal.
7. If you experience symptoms of flashes, new floaters or a curtain across your vision, or any other concerning symptoms, please call Eye Institute day or night at: **208-667-2531, option 1.**
8. Please use caution moving about after your laser procedure as your vision may be compromised.
9. Your follow-up appointment is scheduled for:

Coeur d'Alene

Post Falls
